The application has been amended as follows:

In claim 1, line before "wall" insert "a" .

The following is an examiner's statement of reasons for allowance:

Claims 1-14 are allowed because the prior art does not disclose or suggest a control device with a crown for a watch, comprising a supporting part with an opening, drive shaft therein with first coupling, tube integral with the crown having a second coupling mounted rotatably and translatably between the opening and the drive shaft, an indexing element integral with the supporting part or tube cooperating with first and second structures on the outside of the tube or opening to define a first axial position in which the first and second couplings are engaged to rotate the shaft with the crown, and a second axial position in which the tube is disengaged from the drive shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
